August 25, 2009

To whom it may concern:

I am writing in follow up to Mr. Larry Boss, who is a patient of mine at Loyola University Medical Center. As of my last letter, he had been off of work until August 7th, 2009. Since that time, Mr. Boss has been unable to return to work due to ongoing symptoms and further testing. However he is improving. He will be seeing me in the office on September 1st for reassessment. If he continues to do well, I will recommend that he return to work on September 2nd.

Sincerely,
